EXPERIENCE

Software Developer
IES Residential, Inc.

Sept 2018 – Ongoing · Houston, TX

- Role as front-end focused developer on a small development team.
- Daily tasks include: creating mockups in Balsamiq for layout proposals, executing design using Vuetify and Vue.js, manipulating data through API calls and Vuex stores to visualize for Single Page Applications, test and debug apps for company-wide deployment.

Graphic Design & Video Editor Intern
Proximity Learning, Inc.

July 2018 – Nov 2018 · Austin, TX

- Designated sole web person for company's WordPress site and marketing projects.
- Began redesign for the existing WordPress site and WordPress eCommerce Course Catalog and brought a 21.7% increase in online traffic.
- Created a new and updated logo animation intro to be used for all company-wide video content, as well as assisted in video editing.

Volunteer Developer
Non-Profit Upper Ninety

June 2018 – July 2018 · Austin, TX

- Created www.upperninetycup.com for Austin non-profit Upper Ninety.
- The web app was a centralized page that kept track of all funds in real-time donated by 3 individual groups supporting Upper Ninety's fundraising event during the 2018 World Cup.
- Created by scraping data from multiple CrowdRise links.
